

## IN THE SPECIFICATION

Please amend the Abstract as follows:

C 1  
A system suitable for collecting a body fluid, in particular blood from a body region of a person to be examined which comprises a lancing device which is suitable for holding a lancet, a lancet magazine for storing two or several lancets which has a transport device for the lancets and has an opening into which the lancing device can be inserted to remove a lancet from the lancet magazine, and two or several lancets, and which comprises a method for removing a lancet from a lancet magazine in which a lancet located in the lancet magazine is manually or automatically transported into a removal position in the interior of the lancet magazine, a lancing device is partially inserted into the opening provided in the lancet magazine in the process of which the lancing device automatically grips the lancet located in the removal position when it is partially inserted and the lancing device with the gripped lancet is removed from the lancet magazine.

Please amend the specification as follows:

On the first page of the specification, please insert the following two paragraphs between the line titled "Lancet Dispenser" and the first paragraph:

### Related Application

C 2  
This application claims priority from Application No. 198 40 8560 filed September 7, 1998, in the Federal Republic of Germany, incorporated herein by this reference.

### Background and Summary

On page 20 of the specification, please insert the following new paragraph above the fifth paragraph from the bottom of the page:
